

WE ARE 50!

Merkle anniversary edition!

As presented by Merkle uk

For the 50th anniversary we have designed a special edition for our
MobiTIG 190DC and MobiTIG 180 AC/DC series

LIMITED EDITION STAINLESS STEEL

WE ARE 50!

CELEBRATE WITH US.

MobiTIG 190DC

The MobiTIG 190DC is equipped with the HF DC pulsation device perfectly made for stainless steel welding in DC mode. The arc is pulsed at a frequency up to 12kHz. This offers new opportunities in TIG DC welding which cannot be achieved by the standard welding arc.

LIMITED EDITION STAINLESS STEEL

MobiTIG 180 AC/DC

The small and powerful MobiTIG 180AC/DC offers full welding power up to 180A using the single phase supply of 230v. The compact unit can be universally used for aluminium welding in AC operation for steel and stainless in DC mode as well as for stick electrode welding.
