Learn from the Professionals

WELDING WORKSHOPS FOR ALL

Merkle (UK) Ltd in association with our North West Distributor, Metconnect Ltd are offering the opportunity to all interested customers to learn about the operation and setting up of welding equipment as well as various production techniques and multiple welding processes. These welding workshops will run throughout 2015 and will take place at the Metconnect Welding School in Hollinwood, Oldham. They will be led by experienced professional welding specialists.

Merkle Welding Workshops

Learn both theory and practical in a small group environment.

At our welding workshops experienced welding professionals will show you the basic knowledge of stick electrode, (MMA), MIG-MAG and TIG welding in theory and practice. For our basic beginners workshop no advanced knowledge is necessary and after successful participation you will be capable of producing or repairing simple welding jobs in steel, stainless steel and aluminium.

Welding Processes:

- MIG (Metal Inert Gas) Welding
- MAG (Metal Active Gas) Welding
- TIG (Tungsten Inert Gas) Welding
- MMA/Stick Electrode (Manual Metal Arc) Welding

Throughout the year our welding workshops will also lead onto more specific and targeted welding disciplines, for example, advanced techniques MIG-MAG, TIG & MMA, such as COLD-MIG, High-Performance welding spatter reduction welding, pipe welding in position and much more.

Personal Protection Equipment:

Protective clothing such as welding helmets, welding gloves and welding jackets will be provided. Please wear workshop protective footwear and suitable clothing.

If you are interested in one of our welding workshops just call **0161 682 6622** or send us an email info@merkleuk.com.
